To the President of the Senate and the
Speaker of the House of Representatives

On July 30, 1980, the President's eleventh special message for ~~fiscal year~~ 1980 was transmitted to the Congress pursuant to the Impoundment Control Act of 1974. This special message proposed a revision to two previously transmitted deferrals increasing the amounts deferred by \$13.7 million as follows:

DEPARTMENT OF DEFENSE - Military

D80-9B Military Construction

This special message reports this deferral as involving approximately \$57.4 million. Our review of this deferral shows that there have been changes in the amounts deferred from various accounts included in the deferral due to releases by the Office of Management and Budget. Accordingly, the amount shown as deferred in D80-9B should be \$37,384,000 instead of \$57,391,015.

We have reviewed the eleventh special message. Except as noted above, we have identified no additional information that would be useful to the Congress in its consideration of the President's proposals and we believe that the proposed deferrals are in accordance with existing authority.
