## **GAO Reports to the Congress and Federal Officials**

This pamphlet lists reports of GAO audits and surveys of U.S. government activities issued from July 1 through December 31, 1984. Following the list of reports, which are categorized according to government function, is a list of testimony presented by GAO officials before congressional committees during the same period.

At the end of each subject category are cross-references to related reports listed under other categories. Congressional statements, which are listed in chronological order following the list of reports, are also cross-referenced. Item numbers for both reports and statements are for indexing purposes only.

An index of reports by department or agency follows the listing of reports.

## LEGAL DECISIONS AND OPINIONS

GAO's legal work covers the full range of the government's activities. GAO renders legal decisions and advice to congressional committees and members on matters such as the legality or propriety of proposed expenditures of public funds. Bidders on government contracts may ask GAO to review the procedures used in making awards to other parties. GAO may also be asked to grant relief to government accountable and certifying officers, and debtors and creditors of the government who are dissatisfied with the handling of their affairs by other agencies may seek a GAO review.

The Comptroller General's decisions on the legality of expenditures are binding on the executive branch; payments made contrary to them may be disallowed. Private firms and individuals have further recourse to the courts in most instances.

In a typical year, GAO issues some 5,000 decisions in five major categories:

- General Government Matters
- Civil Personnel
- Military Personnel
- Transportation
- Procurement

About ten percent of GAO's legal decisions are included in an annual volume entitled **Published Decisions of the Comptroller General of the United States**. Generally, decisions are selected for publication on the basis for their future value as precedent and on the widespread applicability of the issues involved. These decisions are first published as monthly pamphlets, the last for each quarter including citation tables and indexed digests. An **Index Digest of the Published Decisions of the Comptroller General**, including digests of all published decisions and legal citation tables, is published every five years.

GAO issues quarterly pamphlets containing digests of those decisions not selected for publication in the annual volume. Separate pamphlets are issued for each of the five areas of GAO concern listed above.

GAO also publishes law manuals in each of the five areas, which include legal information, statutory authority, court case precedents, administrative regulations, and digests of pertinent decisions of the Comptroller General.
