

GAO

Fact Sheet for the Chairman,
Subcommittee on Oversight, Committee
on Ways and Means, House of
Representatives

November 1990

RESOLUTION TRUST CORPORATION

Real Estate Activities in Austin, Texas

142652

General Government Division

B-241276

November 15, 1990

The Honorable J. J. Pickle
Chairman, Subcommittee on Oversight
Committee on Ways and Means
House of Representatives

Dear Mr. Chairman:

Your March 5, 1990, letter requested certain information on Resolution Trust Corporation (RTC) activities in six geographic areas. This fact sheet addresses questions on RTC real estate holdings and property management activities in one of those areas--the Tenth Congressional District of Texas and other areas of Austin, Texas, that are not part of the Tenth District.¹ The five other areas are covered in separate fact sheets addressed to the individuals you designated. Copies of these fact sheets are also being provided to you.

Specifically, you asked for information on (1) thrifts and real estate assets placed under RTC control; (2) real estate assets that have been sold and the purchasers of those sold for \$1 million or more; (3) the number of real estate agents that have been qualified or disqualified for RTC contracts, and for those disqualified, the reasons why; and (4) the names of managers of any high-value real estate properties in the inventory and what they are paid. The following discussion provides this information.

THRIFTS AND REAL ESTATE ASSETS
PLACED UNDER RTC CONTROL

The Office of Thrift Supervision initially places troubled thrifts under the direct supervision of RTC--which serves as conservator² or receiver³--when certain conditions, such as

¹The Subcommittee requested information for specific zip codes, which are listed in appendix I, encompassing an area including Bastrop, Blanco, Caldwell, Hays, Travis, and portions of Burnet counties, in Texas.

²A conservator is appointed to, among other things, operate the thrift as a going concern and preserve and conserve the assets and properties of the thrift.

³A receiver is charged by law with the duty of winding up the affairs of a bank or savings association.

insolvency, capital inadequacy, or unsafe and unsound practices, exist.

Sixty-five thrifts in Texas with total assets of about \$18.2 billion were in the RTC conservatorship program as of June 30, 1990. Four of these thrifts--one thrift in Elgin, Texas (Remington Federal), and three in Austin, Texas, (Austin Federal, Capitol City, and Windsor Federal)--were within the review area. Collectively, these four thrifts had total assets of about \$811 million. Two other Austin thrifts (American Federal and Southside Federal) in the review area had been sold as of June 30, 1990.

We identified 2,300 properties within the review area listed in RTC's real estate inventory as of March 31, 1990. These properties included single-family houses; multifamily residential units; condominiums; commercial properties, such as office buildings and retail space; undeveloped land; and industrial facilities. The specific properties we identified are listed in appendix III. Due to RTC data entry errors, properties with review area postal zip codes may not actually be located within the review area. We have footnoted those properties where there appears to be an error in the zip code or city listed in the inventory database.

To alleviate public concerns over RTC credit policies, the San Antonio consolidated field office acting director said RTC's managing agents⁴ had been asked to minimize the volume of inventory properties by thoroughly examining other possible solutions to problem loans before considering foreclosure. RTC's Asset Management and Disposition Manual outlines a number of such options available to managing agents when a borrower is unable to meet the terms of the original note. Included are debt refinancing and debt restructuring through interest rate and collateral adjustments. The manual states clearly that these alternatives should offer better prospects for recovery on an asset than foreclosure or litigation.

REAL ESTATE ASSETS SOLD

We identified 136 properties within the review area that RTC sold as of March 31, 1990. Due to errors and omissions

⁴Immediately upon appointment as conservator, RTC assigns a team, led by a managing agent, to the thrift being placed under RTC control to establish control and oversee the thrift's operations.

in the RTC headquarters real property database, especially in data on sales occurring before January 1, 1990--the date RTC began to capture sales data--we are not certain that we identified all sales. For example, the RTC regional office in Dallas had not been updating the database to include sales transactions occurring at thrifts in their region.

As a result of the understated sales transactions reported by RTC headquarters, we had to develop most of the sales information from regional data. Of the sales we did identify, three were for \$1 million or more. Appendixes IV and V list the properties sold; the sales price; and, for sales of \$1 million or more, the purchaser's name.

REAL ESTATE BROKER REGISTRATION

RTC procedures do not require real estate agents to register with it because state laws and regulations require agents to work through licensed brokers. However, real estate brokers interested in handling RTC property are required to register. Brokers must certify that their employees or subcontractors, including real estate agents, meet qualification and integrity requirements. As of August 8, 1990, 2,587 brokers had registered to work in the review area. This figure included brokers from outside the area who wanted to be able to list RTC properties.

RTC may disqualify brokers, or any other contractors, on the basis of information provided on the Fitness and Integrity Certifications Form that must be submitted with the firm's Contractor Registration Request. As of July 31, 1990, none of the brokers with offices located in the review area had been disqualified. In fact, as of that date only 19 firms of any type nationwide had been disqualified from being considered for RTC work. Firms may ask for a reconsideration of their status at any time after they have been disqualified.

The fact that a firm is registered with RTC and its name is included on the contractor registry simply enables the firm to be considered for RTC contracts and receive solicitations for services. Inclusion in the registry does not imply that the firm is qualified to do work for RTC or that it is an approved RTC contractor. RTC contracting procedures require contracting officers to determine qualifications and obtain additional ethics certifications from potential contractors each time a firm is considered for a contract.

PROPERTY MANAGEMENT

We identified 92 properties, within the review area and in the inventory as of March 31, 1990, that met the dollar criteria specified in the request. RTC conservatorships and receiverships employed property managers to manage 60 of these assets, including such properties as commercial buildings, apartment complexes, and retail space. RTC officials advised us that management fees and contracts varied from property to property.

To provide a consistent basis for presenting management fees, we used RTC data to calculate actual or, when unavailable, estimated fees for a typical 1-month period.⁵ Fees RTC paid over a typical 1-month period for management services at these properties ranged from \$50 for a single-family residence to \$6,833 for a hotel. The remaining assets, such as raw land, did not require ongoing management or oversight. Appendix VI lists the specific properties identified; the managers, if applicable; and the monthly fees paid for management services.

OBJECTIVES, SCOPE, AND METHODOLOGY

We obtained the information you requested from RTC's March 31, 1990, computerized real estate inventory database and various documents we gathered and analyzed. We also obtained information through discussions with RTC officials at RTC headquarters, all four regional offices, selected consolidated office sites, and thrifts in conservatorship. We used the postal zip codes listed in appendix I to identify specific properties listed in the property inventory database. We did not verify the computerized data; therefore, we cannot attest to the completeness or accuracy of the property listings.

RTC has experienced considerable problems with its real property inventory system. It was aware that data in the system were not always complete and accurate and was trying to verify the data as it updated the inventory. Because of these data quality problems, RTC placed a disclaimer on the database magnetic tapes and floppy disks. The disclaimer stated that

". . . information, contained in the computer product is not guaranteed and is submitted subject

⁵For each contract, we divided the total management fees by the number of months covered by the contract.

B-241276

to, without notice, correction, errors, prior sale or withdrawal from the market. The RTC, now and forever, makes no guarantee, warranty, or representation, expressed or implied, as to the location, quality, kind, character, size, description, or fitness for any use or purpose, of any property listed and/or described in the computer product."

RTC is in the process of hiring a contractor to develop and operate a completely new system for its automated real property inventory records. It expects this new system to be in place during the first quarter of 1991. Since RTC solicited for a system that was operational, it does not expect the delays sometimes experienced in systems development.

We did our work between March and August 1990 in accordance with generally accepted government auditing standards.

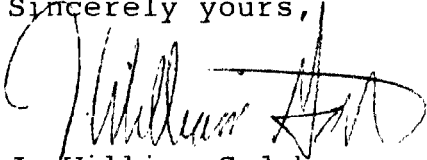

- - - - -

We discussed the results of our review with RTC Southwest Region officials, who agreed with the facts presented in this document.

As agreed with the Subcommittee, no further distribution of this fact sheet is planned; however, we will make copies available to interested parties upon request.

The major contributors to this fact sheet are listed in appendix VII. If you have any questions, please contact me at 275-8387.

Sincerely yours,

J. William Gadsby
Director, Federal
Management Issues
