

United States General Accounting Office
Washington, D.C. 20548

August 11, 2003

The Honorable John McCain
Chairman
The Honorable Ernest F. Hollings
Ranking Minority Member
Committee on Commerce, Science, and Transportation
United States Senate

Subject: *Ocean and Coastal Activities: Information on Federal Funding*

The *Oceans Act of 2000*¹ established the Commission on Ocean Policy (Commission) to make recommendations for a coordinated and comprehensive national ocean policy. The Commission is required to prepare and submit to the Congress and the President a final report of its findings and recommendations, which is scheduled for September 2003. The Oceans Act also requires the President to biennially submit a report to the Congress listing all federal programs related to ocean and coastal activities, including, among other things, current and future funding levels for each program identified, which the Commission can use in its work. The Office of Management and Budget (OMB) submitted the first report for the President, entitled *Federal Ocean and Coastal Activities Report*, to the Congress in March 2003.

Because OMB's report only contained actual funding data for ocean and coastal activities for the period fiscal years 2000 through 2001, you asked us to obtain funding levels for these activities for fiscal years 2002, 2003, and projected for 2004.

This letter documents the data provided to us by 14 federal agencies. We have provided a summary of total funding, by agency, for ocean and coastal activities, by fiscal year; following the summary are agency-by-agency schedules that show, by fiscal year, the activities funded and the related funding levels (see enclosure).

The funding data for fiscal years 2000 through 2003 show that

- total funding for ocean and coastal activities was about \$34.2 billion;

¹Pub. L. No. 106-256, 114 Stat. 644 (2000).

-
- funding for ocean and coastal activities increased each year; and
 - for the most part, agency funding has either remained stable or increased.

To obtain these data, we provided the cognizant agencies with worksheets containing the data on ocean and coastal activities they had reported to OMB and the funding levels as reported by OMB in its March 2003 report for fiscal years 2000 and 2001. We asked the agencies to provide updated budget figures for fiscal years 2002, 2003, and projected for 2004. We also asked the agencies to provide information on any new programs they had instituted after reporting to OMB. We did not verify the data provided by the agencies and are reporting it as submitted to us. We performed our work from March 2003 through August 2003 in accordance with generally accepted government auditing standards.

We are sending copies of this report to the Secretaries of Agriculture, Commerce, Defense, Energy, Homeland Security, Interior, State, and Transportation; the Administrators of the Environmental Protection Agency and National Aeronautic and Space Administration; and the Directors of the Marine Mammal Commission, National Science Foundation, Smithsonian Institution, and the U.S. Agency for International Development. In addition, this report will be available at no charge on the GAO Web site at <http://www.gao.gov>.

If you have any questions about this report or need additional information, please call me at (202) 512-3841. Key contributors to this report were John Kalmar, Jr., Katherine Kousser, and Keith Oleson.

Anu Mittal
Acting Director, Natural Resources
and Environment

Enclosure

Summary and Agency-by-Agency Information on Federal Funding for Ocean and Coastal Activities

Table 1: Summary

Agency	FY 2000 Actual	FY 2001 Actual	FY 2002 Actual	FY 2003 Enacted	FY 2004 Budget projection
Dollars in millions

GAO's Mission

The General Accounting Office, the audit, evaluation and investigative arm of Congress, exists to support Congress in meeting its constitutional responsibilities and to help improve the performance and accountability of the federal government for the American people. GAO examines the use of public funds; evaluates federal programs and policies; and provides analyses, recommendations, and other assistance to help Congress make informed oversight, policy, and funding decisions. GAO's commitment to good government is reflected in its core values of accountability, integrity, and reliability.

Obtaining Copies of GAO Reports and Testimony

The fastest and easiest way to obtain copies of GAO documents at no cost is through the Internet. GAO's Web site (www.gao.gov) contains abstracts and full-text files of current reports and testimony and an expanding archive of older products. The Web site features a search engine to help you locate documents using key words and phrases. You can print these documents in their entirety, including charts and other graphics.

Each day, GAO issues a list of newly released reports, testimony, and correspondence. GAO posts this list, known as "Today's Reports," on its Web site daily. The list contains links to the full-text document files. To have GAO e-mail this list to you every afternoon, go to www.gao.gov and select "Subscribe to e-mail alerts" under the "Order GAO Products" heading.

Order by Mail or Phone

The first copy of each printed report is free. Additional copies are \$2 each. A check or money order should be made out to the Superintendent of Documents. GAO also accepts VISA and Mastercard. Orders for 100 or more copies mailed to a single address are discounted 25 percent. Orders should be sent to:

U.S. General Accounting Office
441 G Street NW, Room LM
Washington, D.C. 20548

To order by Phone: Voice: (202) 512-6000
 TDD: (202) 512-2537
 Fax: (202) 512-6061
