

# DIRECTORY

FOR FINANCIAL MANAGERS 1990

Joint Financial Management Improvement Program

## PREFACE

One of the Joint Financial Management Improvement Program's (JFMIP) objectives is to encourage and promote the sharing and exchanging of information concerning good financial techniques and practices throughout the Government. Accordingly, we update annually the *Directory for Financial Managers* to facilitate and improve communication among federal financial managers and to promote a better climate for good financial management.

We encourage that this *Directory* be used to establish a financial managers' network on a continuous basis to learn from each other's experience and knowledge.

In order to provide timely and responsive service to the financial management community, we would appreciate being informed of any major changes to its contents. Please contact us in writing at the JFMIP address shown below:

JFMIP  
666 - 11th Street, NW, Suite 705  
Washington, DC 20001

Any comments, suggestions or questions concerning this *Directory* should also be sent to the above address, or by fax to JFMIP, fax number (202) 376-5396.

## INTRODUCTION

### WHAT IS JFMIP ?

The Joint Financial Management Improvement Program (JFMIP) is a joint cooperative undertaking of the Office of Management and Budget, the General Accounting Office, the Department of the Treasury, and the Office of Personnel Management, working in cooperation with each other and with operating agencies to improve financial management practices throughout Government. The Program was initiated in 1948 by the Secretary of the Treasury, the Director of the Bureau of the Budget, and the Comptroller General, and was given statutory authorization in the Budget and Accounting Procedures Act of 1950. The Civil Service Commission, now the Office of Personnel Management, joined JFMIP in 1966.

The overall objective of JFMIP is to make improvements that contribute significantly to the effective and efficient operations of governmental programs. Activities aimed at achieving this objective include:

- Developing general objectives in those areas of common interest to the central agencies for guiding the improvement of financial management across government and promoting strategies for achieving those objectives.
- Reviewing and coordinating central agencies' activities and policy promulgations affecting financial management to avoid possible conflict, inconsistency, duplication, and confusion.
- Undertaking projects and special reviews of significant problems and new technologies in financial management and publishing the findings and conclusions.
- Acting as a catalyst and clearinghouse for sharing and disseminating financial management information about good financial management techniques and technologies.
- Reviewing the financial management efforts of the operating agencies and serving as a catalyst for further improvements.

The JFMIP plays a key role in mobilizing resources and coordinating cooperative efforts in the improvement of financial management practices, and relies on the active participation of federal agencies to be successful. The Joint Program is guided by a Steering Committee consisting of key policy officials from each of the central agencies. A key official from a program agency, currently the Department of Defense, also serves on the Steering Committee. A small staff headed by an Executive Director provides support to the Committee.
