Comptroller General Reports to the Congress

Reports on GAO audits, surveys, and investigations of U.S. Government activities.

This list includes reports issued during the period July 1973-June 1974. They are listed by functions of the Government, not by departments or agencies. Because findings developed in one agency frequently have application in others, this arrangement allows consideration of all findings in all agencies in each functional area.

An index by agency follows the listing of reports.
