

Debt Held by the Public under Two Policy Simulations

Percentage of GDP

Source: GAO and GAO analysis of Congressional Budget Office data.

Notes: Data for the simulations are from GAO's 2019 simulations. Read more about the analyses we did with different assumptions. Both of GAO's simulations assume that Social Security and Disability benefits are paid in full regardless of the current projections of revenues into the Old-Age and Survivors Insurance and Disability Insurance trust funds. Read about the assumptions underlying these simulations.

Debt Held by the Public under Two Policy Simulations

Fiscal year	Congressional Budget Office	GAO's baseline simulation	GAO's alternative simulation	Historical high	Historical average
1968	32.2%	.	.	106%	46%
