Pursuant to section 801(a)(2)(A) of title 5, United States Code, this is our report on a major rule promulgated by the Nuclear Regulatory Commission (the Commission) entitled "Revision of Fee Schedules; Fee Recovery for Fiscal Year 2019" (RIN: 3150-AJ99). We received the rule on May 17, 2019. It was published in the Federal Register as a final rule on May 17, 2019. 84 Fed. Reg. 22331. The effective date of the rule is July 16, 2019.

The final rule amends the licensing, inspection, special project, and annual fees the Commission charges its applicants and licensees. The Commission is required to recover approximately 90 percent of its annual budget through fees. 42 U.S.C. § 2214. The Commission determined that it must bill approximately $782.5 million in fees in fiscal year 2019 to licensees and applicants.

Enclosed is our assessment of NRC’s compliance with the procedural steps required by section 801(a)(1)(B)(i) through (iv) of title 5 with respect to the rule. If you have any
questions about this report or wish to contact GAO officials responsible for the evaluation work relating to the subject matter of the rule, please contact Janet Temko-Blinder, Assistant General Counsel, at (202) 512-7104.
