Subject: Federal Communications Commission: Exclusive Service Contracts for Provision of Video Services in Multiple Dwelling Units and Other Real Estate Developments

Pursuant to section 801(a)(2)(A) of title 5, United States Code, this is our report on a major rule promulgated by the Federal Communications Commission (Commission), entitled “Exclusive Service Contracts for Provision of Video Services in Multiple Dwelling Units and Other Real Estate Developments” (FCC 07-189). We received the rule on December 20, 2007. It was published in the Federal Register as a final rule on January 7, 2008. 73 Fed. Reg. 1080. The rule has a stated effective date of March 7, 2008.

The final rule prohibits the enforcement of existing exclusivity clauses and the execution of new exclusivity clauses in contracts between cable operators that provide video programming service and certain residential units. The types of units covered by this rule are multiple dwelling units such as apartment or condominium buildings and centrally managed real estate developments such as gated communities, mobile home parks, and garden apartments (collectively, MDUs). The Commission concludes that such exclusivity agreements harm competition, the provision of programming to MDU residents, and broadband development.

Enclosed is our assessment of the Commission’s compliance with the procedural steps required by section 801(a)(1)(B)(i) through (iv) of title 5 with respect to the
rule. Our review indicates that the Commission complied with the applicable requirements.

If you have any questions about this report, please contact Michael R. Volpe, Assistant General Counsel, at (202) 512-8236. The official responsible for GAO evaluation work relating to the subject matter of the rule is Patricia Dalton, Managing Director, Physical Infrastructure. Ms. Dalton can be reached at (202) 512-2834.
